

ABU ALIF RAHARJO

+628996937240 | abualif1819@gmail.com | <https://www.linkedin.com/in/abualif> | <https://github.com/Abualif>

I am a Diploma IV graduate in Internet Engineering Technology from Gadjah Mada University with experience in Data Analytics. I specialize in SQL, Python, and Power BI for data extraction, transformation, modeling, analysis, DAX, query optimization, and interactive dashboard development. I have professional experience in the FMCG industry, delivering data-driven insights, reporting, and business intelligence solutions to support business performance. I also have experience managing end-to-end projects, collaborating with clients and stakeholders to gather requirements and deliver solutions aligned with business objectives. I am passionate about leveraging data to drive informed decision-making and business growth.

Background Education

Universitas Gadjah Mada - Yogyakarta, Indonesia <i>D4 Internet Engineering Technology, 3.66/4.00</i>	Sep 2021 - Jul 2025
SMAN 4 Bekasi <i>MIPA, 84.00/100.00</i>	Jul 2018 - Jun 2021

Work Experiences

PT Pitjarus Teknologi - Bekasi, West Java <i>Data Operations Support</i> - Performed data mapping, validation, and preparation to ensure data accuracy and consistency. - Developed and optimized SQL queries for data extraction, transformation, and reporting. - Built interactive Power BI dashboards using data modeling, DAX, and KPI visualization. - Translated business requirements into insightful reports and dashboards for decision-making. - Served as the primary technical liaison between clients and internal teams. - Coordinated issue resolution and system enhancements with support and engineering teams. - Gathered client requirements and managed application enhancement requests. - Delivered technical training and user support to ensure effective system adoption.	Aug 2025 - Now
--	----------------

Satuan Penjaminan Mutu dan Reputasi Universitas Gadjah Mada - Sleman, Yogyakarta <i>Data Analyst</i> - Processing data documents such as Quality Manual, Quality Standards, and Evaluation Forms. - Manage study programme and faculty data in the process of applying for BAN-PT accreditation or international institutions - Processing academic performance data (such as learning outcomes, lecturer-student ratio, scientific publications). - Provide data-based insights and recommendations for quality improvement. - Ensure data integration with university systems - Manage the Website Dashboard periodically	Oct 2024 - Mar 2025
---	---------------------

PT Parama Data Unit - Sleman, Yogyakarta <i>Machine Learning Engineer Intern</i> - Develop machine learning models to detect and estimate the volume of rocks on shale shakers using image and/or video data. - Preprocess and annotate datasets including video feeds and sensor data from drilling operations. - Design and implement deep learning algorithms (e.g., CNNs) for object detection, segmentation, and volume estimation. - Collaborate with data engineers to integrate ML models into real-time monitoring systems. - Conduct model evaluation, tuning, and performance optimization under field conditions. - Work closely with drilling and field experts to validate results and improve model accuracy. - Document model development processes and generate technical reports for stakeholders. - Ensure the robustness, scalability, and efficiency of the deployed ML solution in industrial environments.	Sep 2024 - Jan 2025
---	---------------------

PT Ivonesia Solusi Data - Tebet, Jakarta <i>Data & Reporting Intern</i> - Source data from various social media platform and digital channels - Manage and organize collected data for easy access and retrieval. - Analyze data to extract meaningful insights and identify key performance indicators (KPIs). - Conduct pre-insight analysis to uncover potential trends and insights. - Collaborate with cross-functional teams to define analysis objectives and questions. - Ensure data compliance with privacy regulations and company policies. - Generate reports and visualizations to communicate findings effectively.	Aug 2023 – Dec 2023
--	---------------------

PT Global Data Inspirasi - Sleman, Yogyakarta <i>Data Analyst Intern</i> - Analyzing data and visualizing data with the output obtained is made into an article - Create a dashboard using google data studio (Looker Studio) - Make an analysis of the data that has been provided	Apr 2023 - Aug 2023
---	---------------------

- Perform data cleaning and validation to ensure accuracy before analysis.

Organization Experiences

Komunitas Mahasiswa TIK UGM - Sleman, Yogyakarta <i>Staff, Internet of Things (IoT) Division</i> • Learn about Internet of Things • Make IoT projects	Feb 2023 - Jan 2024
FORKOMTRI (Forum Komunikasi Teknologi Rekayasa Internet) - Sleman, Yogyakarta <i>Head of Division Cyber Militia</i> • Coordinating support and appreciation for TRI students or contingents who are currently competing. • Coordinate in appreciation When TRI students graduate in graduation.	Feb 2023 - Mar 2024
FORKOMTRI (Forum Komunikasi Teknologi Rekayasa Internet) - Sleman, Yogyakarta <i>Staff, Cyber Militia Division</i> • Coordinating support and appreciation for TRI students or contingents who are currently competing. • Coordinate in appreciation When TRI students graduate in graduation.	Apr 2022 - Feb 2023
Router On - Sleman, Yogyakarta <i>Coordinator, Equipment Division</i> • Coordinate and organize equipment during the event. • Coordinate the needs of goods with other divisions.	Sep 2022 - Oct 2022
BIRU (Berinisiatif dan Berusaha) - Sleman, Yogyakarta <i>Staff, Sponsorship Division</i> • Looking for sponsors for the events being held. • Participate actively in organized events.	Feb 2020 - Feb 2021

Skills, Achievements & Additional Experience

- **Projects** : Customer Review Clustering K-Means (Machine Learning Project, 2024), Image Classification (Machine Learning Project, 2024), Social Media Labelling (Data Analyst Project, 2024), Tourism Village Dashboard (Data Analyst Project, 2023), Hotel Recommendation (Data Analyst Project, 2023), Smart CCTV using ESP32Cam (Internet of Things Project, 2023), Website Training (Website Project, 2023).
- **Hard Skills**: Microsoft Office, SQL, Python, PostgreSQL, PowerBI, Looker Studio, Tableau, Classification, Github, Modelling, system automation, Internet of Things (IoT)
- **Soft Skills**: Problem Solving, Analytic Skill, Teamwork, Time Management, Adaptability, Public Speaking
- **Certifications** : MikroTik Certified Network Associate (2025), Belajar Machine Learning untuk Pemula (2024), Belajar Dasar Visualisasi Data (2024), Memulai Pemrograman dengan Python (2024), Belajar Dasar Structured Query Language (SQL) (2023), CCNAv7: Introduction to Networks (2022)
- **Portofolio** : Portofolio Data Analyst
